

Ets: Mauritanie Batiment et Travaux Publics

MBTP – Mauritania Building & Public Works

Your Partner for Reliable Infrastructure Solutions

Company Overview

- Founded in 2015 by Abdel Kader Cheiguer, MBTP is a Mauritanian company specializing in Building and Public Works. With extensive experience across local projects, MBTP has established itself as a reliable and versatile partner serving public, private, and international clients.

Areas of Expertise

- Public Works – construction and maintenance of roads & infrastructure
- Hydraulic Construction – waterworks and water management
- Drilling – water and resource boreholes
- Environment – protection and sustainable management
- Equipment Rental – supply of construction machinery

Mission & Values

Mission: To contribute to infrastructure development in Mauritania and the sub-region through reliable, innovative, and sustainable solutions.

Core Values:

- Innovation – adopting modern methods
- Quality – delivering high performance
- Safety – protecting teams, clients & environment
- Responsibility – respecting deadlines and commitments

Key Projects

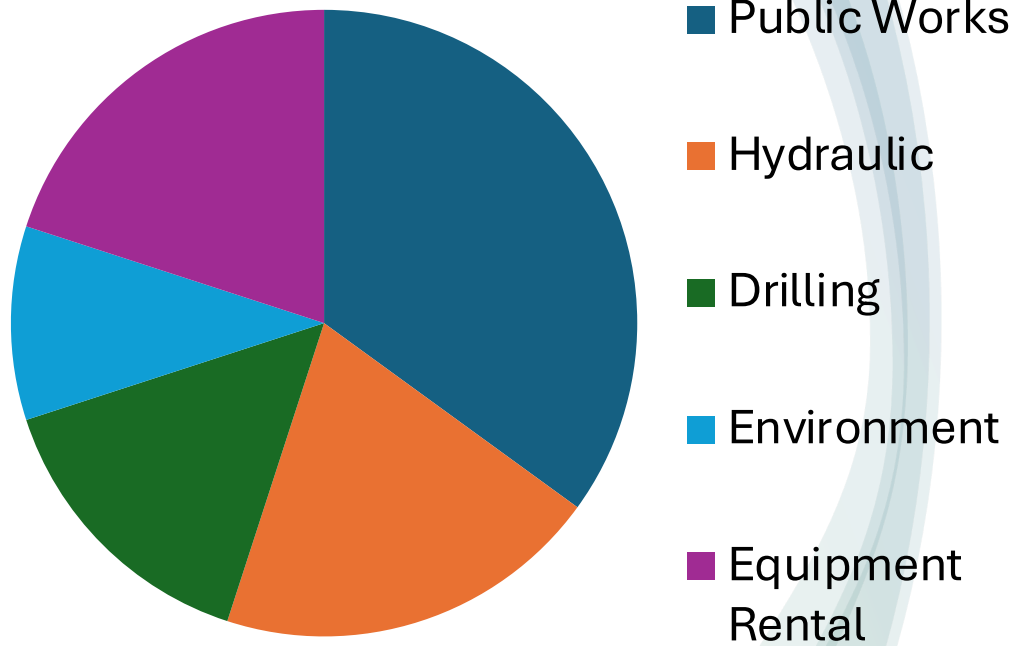

- Road construction and maintenance projects
- Public and private construction works
- Environmental and hydraulic infrastructure initiatives

Clients & Partners

- • Public Sector – government institutions & municipalities
- • Private Sector – companies and individuals
- • International Partners – organizations and institutions

Projects

Market Sectors

Sample Projects

Key Road & Transport Projects

- **RN1 Nouakchott–Rosso Rehabilitation** – World Bank (2017) → Major trade corridor.
- **RN1 Nouakchott–Nouadhibou Maintenance** – World Bank (2018–2019, 2025) → Safety and durability.
- **Secondary Roads & Rural Tracks** – Ministry of Equipment (2017, 2018, 2019, 2023, 2024, 2025) → Regional connectivity.
- **Atar Road Rehabilitation** – Ministry of Equipment (2025).

Water & Hydraulic Projects

- **Boghé & Sélibaby Wells** – Ministry of Hydraulics (2017, 2019).
- **Solar Pump Installations** – Ministry of Hydraulics (2018, 2024).
- **Rural Water & Sanitation Program** – World Bank (2024).
- **Chinguetti Community Well** – Ministry of Hydraulics (2025).

Port & Logistics Development

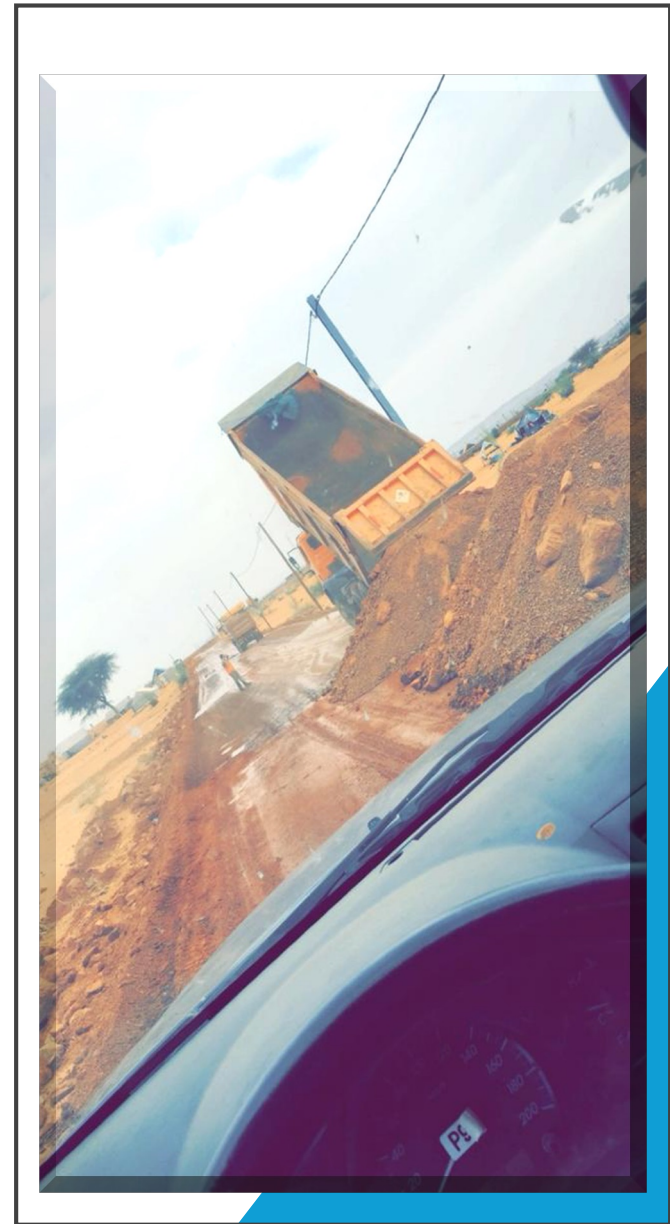

- **Nouadhibou Port Expansion** – Government of Mauritania (2023).
- Strengthening trade and export capacity with port infrastructure.

Environmental & Sustainable Development

Great Green Wall Project – European Union (2022, 2024) → Land restoration & climate resilience.

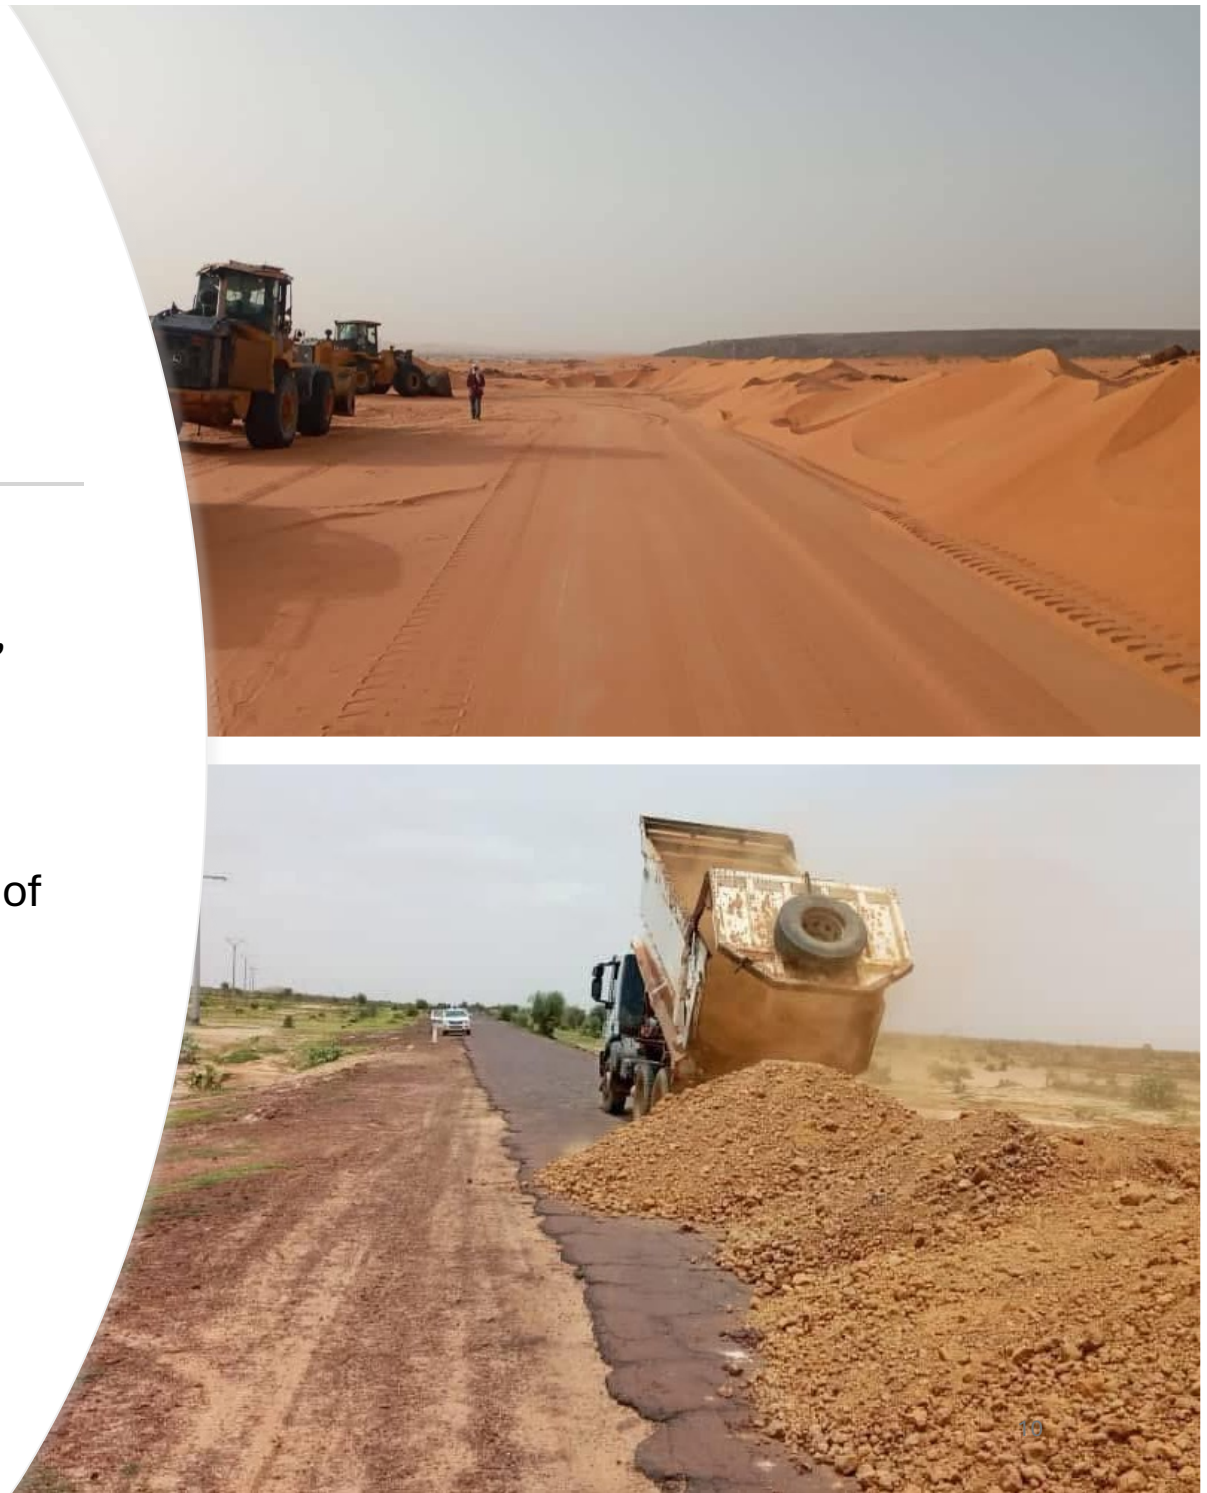

Tree Plantations in Nouakchott – EU (2022).

Dune Stabilization Projects – Ministry of Environment (2022).

Strategic Alignment

- MBTP aligns its expertise with national infrastructure programs, focusing on roads, hydraulics, drilling, and environment. By working with ENER and public institutions, MBTP contributes to the sustainability and expansion of Mauritania's infrastructure.

Comparison: MBTP vs Competitors

Criteria	MBTP	Competitors
Human Resources	20+ Admin, 50+ Technical Staff	Limited staff, less technical expertise
Equipment & Fleet	50+ Vehicles, Machines, Rigs	Fewer machines, limited fleet
Experience	Projects with NR, ATR, Ministry (2015, 2020, 2022)	Less exposure to government projects
Reliability	Trusted by public and private sectors	Not consistent in delivery

Conclusion

With more than 70 qualified staff, a fleet of over 50 machines and vehicles, and strong partnerships with NR, ATR, and the Ministry of Transport, MBTP demonstrates unmatched execution capacity.

As a reliable partner for both government and private sectors, MBTP is your trusted choice for delivering high-quality infrastructure projects.
